Description:

The company **VYTECO** Ltd. made production of the packagings:

- 1) CONSTRUCTION PACKAGINGS for industrial products, mainly for electric and electronic devices, measuring instruments, health technology and instruments, glass, car parts, servicing technology, aviation and space technology and instruments, machine parts, tools etc. To reach for the highest damping and safety quality it is necessary to use right materials: PE, PP, PU, corrugated cardboard, their combination or together with other materials.
- 2) Construction, technical and complementary elements from foam materials.
- 3) Handling, assist and transport parts.
- 4) Stickers, ledges, insets and trays, cut pieces and shaped parts, fixation...
- 5) CASES AND INSERTS- We adapt customer's own case according to his requirements and purpose of use, or we will offer and design right case from the large offer of world market. All this in various realizations (plastic, aluminium, wood, metal sheet). Linings - soft foam (PU), hard foam (PE), fine hard foam (PE).
